EE 5370
Programming Assignment #4
Due November 30, 2021

Write a Python script that uses the Requests library (see
https://requests.kennethreitz.org/en/master/) to interact with the Open Movie Database (see
http://www.omdbapi.com) to obtain the data on your favorite movie, place it in a Python
dictionary, and then do something creative with that data. You can use the example script
posted on Blackboard to help you accomplish this task.

You can name your Python script whatever you like. You will submit this assignment via
Blackboard on November 12th. The instructor will contact you to schedule a time for you to
demonstrate its operation.

Grading rubric:

Submission	75
Correct accessing of movie data in Python dictionary	10
Creativity of use of movie data	15
